## MENASHA LOCK AND DAM, GARAGE

HAER NO. WI-90-C

HAER  
WIS  
70-MENA,  
3C -

**Location:** The garage at the Menasha Lock and Dam Complex is located roughly 30 feet northeast of the lockkeeper's residence in the E1/2, SW1/4, NW1/4, Section 15, T20N, R17E, Civil Town of Menasha, Winnebago County, Wisconsin.

UTM: West 16/393560/4903630; Center 16/393680/4903620; East 16/393800/4903610; USGS Quadrangle: Kaukauna, Wisconsin 7.5' series

**Date of Construction:** circa 1970

**Engineer:** United States Army Corps of Engineers with Contractors

**Architect:** United States Army Corps of Engineers with Contractors

**Present Owner:** United States Army Corps of Engineers, Detroit District

**Present Use:** Storage building for the lockkeeper's vehicle.

**Significance:** The garage associated with the lockkeeper's residence is used by the lockkeeper and family, and functions as part of the operation of the Menasha Lock and Dam Complex.

**Project Information:** This documentation was undertaken in 1995 in accordance with requirements detailed in a June 19, 1994 letter from Gregory D. Kendrick, Chief, History Branch, NPS to Dale Monteith, Acting Chief, Planning Division, USACOE, Detroit District. The Lower Fox system remains basically operational but was placed in caretaker status by the USACOE in 1982. The USACOE plans to divest itself of the Lower Fox system as soon as is feasible; therefore, NPS requested this documentation. All documentation conforms to HAER standards.

Dr. John D. Richards, Principal Investigator; Georgia A. Lusk, Patricia B. Richards, and Robert J. Watson, Project Archivists with Great Lakes Archaeological Research Center, Inc.; Joseph Paskus, Project Photographer.

## **GARAGE**

A vehicle garage is located 30 feet northeast of the lockmaster's residence at Menasha Lock. The 14 foot by 20 foot garage is a front gabled, wooden frame building, clad in drop siding. The garage has a low pitched roof covered by asphalt shingles. The south elevation features a two car width overhead door. To the west of the overhead door is a personnel door with a glazed upper panel.
